Notes about our price list and our service:-

This price list represents the range of equipment that we normally carry in stock. Each manufacturer and importer that we deal with has a wide range of machinery that will not all be listed here so if you cannot see a machine to suit you then please contact us and we will do our utmost to help you.

We aim to provide a wide range of equipment offering good value for money at all times and with an emphasis on the better quality end of the market.

All machines that we supply will normally be fully assembled and where appropriate fuelled & oiled ready to use!

Most machines can be delivered free of charge within our local area.

We offer a **Half Price Service** on any new machines sold during the year provided that they are booked in for service during November or December which is our winter servicing period.

We provide a high quality parts and service backup for all machines that we sell.

In the event of a machine failure during the warranty period, we will give absolute priority to the repair, often providing an immediate or same-day service.

All prices quoted are inclusive of VAT at 20%

The specifications in this price list are intended as a means of comparing products within our product range. They are subject to change without notice and although we do our utmost to ensure that they are correct it is advisable to contact us to confirm exact current specifications and prices prior to purchase.

If you do find the same machinery advertised locally or nationally at a lower price then please contact us as we will always attempt to match competitors for local business.

We do not supply machines beyond our normal local delivery area (max 30 miles) as we believe that this equipment requires regular maintenance and ready availability of spare parts. There are already too many people selling equipment via the internet, and indeed from larger stores where there is no provision for future servicing or even warranty backup by them. Although warranty cover is provided by the manufacturer the actual warranty repair is usually carried out by specialist dealers such as ourselves and our priority is always to look after our own customers as they are where our future lies. **Many manufacturers are now insisting that warranty should be provided by the original seller so claims that national service networks are available may be misleading.**

Please note that it is also possible to purchase a brushcutter & add a pole pruner attachment to obtain a dual purpose machine with identical performance.

For example:-

Tanaka TBC240 Brushcutter + TPS200 attachment = £398.00

Tanaka TBC230SF Brushcutter + SFPS attachment = £518.00 (Smartfit)

Tanaka TCG27EBS (SL) Brushcutter + TPS200 attachment = £468.00 (same as TCS27EPAP(S))

Tanaka TCG27EBD (SL) Brushcutter + SFPS attachment = £574.00 (Smartfit)

Stihl FS90R Brushcutter + HT attachment = £629.00

Combi-Tools will also make up similar units with the advantage of other uses,

For example:-

Stihl KM56RC-E with KM-HT pole pruner = £400.00

Stihl KM94RC-E with KM-HT pole pruner = £480.00
